

Market Trends

Designers and industry experts predict that the most popular color trends for home exteriors are dark, bold colors.

Intense heat from the sun's rays can take a toll on the exterior of your home. This can cause panels to distort and fade. Darker colors present an even bigger challenge because they absorb more of the sun's damaging rays. Kaycan's research and development team aggressively tested dark colored vinyl siding in laboratories and field tests, in order to combat these issues.

Being at the forefront of the industry, Kaycan is pleased to introduce **Helio™** Technology to enhance overall product performance. The results prove that its unique properties and heat resistance capabilities are ideal for these new color trends.

Picking the right siding color, style and design is about to get easier.

Relax, you've got all you need right now!

This brochure will be the start of your exciting remodeling journey. As you page through all the options you have in the Kaycan line that are offered Thrush & Son, make notes of woodgrain patterns you like, siding profiles you feel bring out the best in your house, and then narrow down the colors to a few you think will work in your neighborhood. Then bring your wish list back into Thrush & Son! We have trusted Kaycan vinyl siding products to deliver a very broad offering of low-maintenance sidings and accessories for many years.

Keeping your Kaycan vinyl siding looking new is as simple as a little soap and a squirt from the garden hose from time to time.

The more you know about vinyl siding the more you will love about Kaycan!

We find most people do plenty of research when it's time to remodel their home exterior. They start asking their neighbors and friends where they have had good or bad experiences. Checking the internet adds plenty of information—**specs, performance ratings, profiles, thicknesses and colors.** It's a great place to compare apples to apples. Most people will talk with a contractor friend and then go to their local building material dealer for their recommendation, and that will bring you to **Kaycan.**

Contractors and homeowners alike have depended on the low maintenance sidings from Kaycan for the best product designs and engineering that will give them a professional installation every time. Whether you do it yourself, or have a contractor do it for you, your home is going to go through an amazing transformation and **you're going to love it.**

There is a siding for every **taste and budget.** And there's a complete system to cover your entire home in low-maintenance vinyl. Around doors and windows. Soffit designed to fit all your overhangs and porches as well as the fascia and accessories to complete the job. With Kaycan, you can enter into the job with confidence knowing that everything you need will be there—from installation instructions and tips to all the special trim pieces and accessories.

HERE ARE A FEW ERMS THAT WILL HELP YOU ALONG THE WAY

Gauge

This is the thickness of the panel. The higher the gauge (or panel thickness), generally the better the panel. Thicker panels offer greater impact and weather resistance. Thicker panels also are more rigid so they will hang straighter and flatter against the wall for a more attractive finished installation. Thickness also adds cost, so balance out the performance characteristics you desire with your budget.

Grain

Vinyl siding is molded with different wood grains to offer different exterior looks. We've designed the panels of Kaycan vinyl siding to have interesting woodgrains with enough subtle variations to allow for most every style and taste.

Style, Performance and Value

When selecting the right siding for your home, you will want to take into consideration the architectural styling of your home, environmental conditions such as wind and hail that your siding will need to endure, and your budget. Kaycan sidings come in most every price level, and even our most budget-conscious vinyl siding still stands up to harsh winters and tough summer sun.

Timberlake™ Vinyl Siding

If you could take softly weathered painted pine and stop the weathering process in its tracks, you would have Timberlake™ vinyl siding.

You can have texture and interest, and none of the maintenance associated with it.

With its broad color options and many profiles, our Timberlake collection offers countless options to fit any design. From muted neutrals to cool grays, this collection will showcase any style home.

The traditional homes are often sided in light, subdued shades paired against darker shutters and trims to draw out your home's architectural details. Modern, contemporary homes demand contrasting shades, the cool tone grays marry well with stone, steel and dark trims. The Timberlake collection offers a multitude of options to help you design the house of your dreams.

Timberlake™ Vinyl Siding is available in 6 profiles to give you more options.

Don't stop with the siding, cover your whole house!

There are a lot of areas on your house that siding doesn't cover. We've taken that into consideration and designed a complete line of soffit and accessories to do the job. With Kaycan sidings you get matching and contrasting accessories to round out your low-maintenance remodeling project.

Vinyl soffits come in many designs and widths, with special venting perforations that help the necessary exchange of air and moisture. There are also special window and door trims that do a great job of protecting your house and looking just like wood trim at the same time. Most of these accessories and trims come in a broad variety of colors to match your siding exactly, or provide a nice architectural statement in a contrasting shade. Ask your local store associate for information on all your options.

Why Timberlake™ Siding?

- Premium gauge thickness for added strength and rigidity
- Deep shadow lines and a low gloss finish for an authentic appearance
- Duratron™ Vinyl Technology ensures durability and long lasting performance.
- Backed by a Limited Lifetime Warranty.

Printed colors may vary from actual siding color. Please make a final color selection from siding samples.

D4.5D PROVA

Prova[™] Vinyl Siding is available in 6 profiles to give you more options.

Don't stop with the siding, cover your whole house!

There are a lot of areas on your house that siding doesn't cover. We've taken that into consideration and designed a complete line of soffit and accessories to do the job. With Kaycan sidings you get matching and contrasting accessories to round out your low-maintenance remodeling project.

If you could take softly weathered painted pine and stop the weathering process in its tracks, you would have Prova[™] vinyl siding.

You can have texture and interest, and none of the maintenance associated with it.

With its natural, realistic wood grain texture and low-gloss finish, Prova vinyl siding offers unparalleled beauty and distinctive style for your home with its Double 4.5" Dutchlap profile.

Prova's color offering was inspired by our surroundings, from the blue sky, muted greens to icy grays. Whether you are building a new home, adding an extension or simply residing your home's exterior, we have the perfect shade. Choosing a neutral, calming shade that will blend into the landscape will make your home appear larger. You can also select a high contrasting color to bring forth your home's architectural flair.

Vinyl soffits come in many designs and widths, with special venting perforations that help the necessary exchange of air and moisture. There are also special window and door trims that do a great job of protecting your house and looking just like wood trim at the same time. Most of these accessories and trims come in a broad variety of colors to match your siding exactly, or provide a nice architectural statement in a contrasting shade. Ask your local store associate for information on all your options.

Why Prova[™] Siding?

- Medium gauge thickness for impact resistance and durability.
- Deep, rich shadow lines provide depth and dimension.
- Infused color that goes all the way through, won't chip or fade.
- Duratron[™] Vinyl Technology ensures durability and long lasting performance.
- Backed by a Limited Lifetime Warranty.

Richmond

The Vinyl Siding that Stands Out Among the Rest as the Best.

- The time honored tradition of 6" lap siding in ultra durable vinyl.
- Classic beauty, long lasting elegance.
- Subtle realistic woodgrain molded from real cedar planks.
- Available in rich saturated craftsman tones and perfectly matched trims.
- Premium strength and impact resistance.
- Limited lifetime warranty on substrate and finish, plus 25 years fade resistance warranty.

Richmond ^{ULTRA}

Where Style and Science Meet

The exterior of your home is an expression of your style but equally as important is that the beauty lasts. Kaycan offers the ultimate in style and science in the Richmond Ultra™ Collection. Richmond Ultra™ is designed to always look incredible and deliver protection and comfort year after year.

Richmond Ultra™ brings together quality insulation and vinyl siding using our patent-pending mechanical fastening system, a revolutionary system allowing the vinyl and foam to function independently to expand and contract freely as outside temperatures change. The system design maintains the structural integrity and resists warping and bowing, keeping your siding smooth and straight for years. Richmond Ultra™, unparalleled Beauty, Protection, Durability and Ease.

Double-thick Cyclone-System™ nail hem for extra rigidity and wind resistance.

Premium 0.050" thickness for exceptional impact resistance.

Full 3/4" profile provides dramatic shadow lines.

Chromalock™ vinyl technology locks-in color.

Extra thick paneling and insulation keeps air and insects out and its superior insulation keeps your home warm in the winter and cool in the summer.

Mechanical fastening system allows for a more resilient insulated siding that protects your home from extreme weather conditions.

Self-aligning locking system is designed to snap together for extra fastening strength.

Premium 0.050" thickness and double sized insulated panels reduce noise by up to 30%.

Ocean Park XL™

Ocean Park XL™ *Inspired by Strength*

When you think of your home, you picture your own haven, it is where you come back to relax and settle in. With this in mind, we developed our Ocean Park XL™ Ultra insulated siding, enveloping your home with added comfort.

A delicate color palette highlighting organic shades will flatter any style. Elongated panels will further draw the eye to your home's beauty. Showcase the earthy tones by selecting darker shutters and contrasting trims. The cool, airy shades beckon a crisp outline, bringing forth all its architectural flair.

Double-thick Cyclone-System™ nail hem for extra rigidity and wind resistance.

Premium 0.050" thickness for exceptional impact resistance.

Full 3/4" profile provides dramatic shadow lines.

Chromalock™ vinyl technology locks-in color.

- Heavy gauge thick panel for exceptional strength and durability
- Double Thick Cyclone System Nail Hem provides extra rigidity and wind load resistance
- Infused color throughout the panel won't chip or fade
- Our longer 16'8" panels reduce seams by 33% compared to standard siding
- 43% thicker than conventional panels deliver long lasting performance
- Duratron™ Vinyl Technology ensures durability and long lasting performance.
- Backed by a Limited Lifetime Warranty

Making your home stand out from the rest

Kaycan Vertical Board and Batten looks like real wood up close and on the wall, too.

Our low-gloss, rough-cedar texture creates a surface so real, it feels like it could give you splinters! And the low-gloss cedar texture is just the start. Kaycan's Vertical Board and Batten siding is wider and more realistic than most competitive board and batten vinyl sidings. It's full 7" exposure with a 5 1/2" face and 1 1/2" batten. Kaycan's vertical board and batten siding has a full 1/2" profile that provides dramatic shadows and the authentic look of a true board and batten siding.

Kaycan Vertical Board & Batten vinyl siding's self-aligning locking system is designed to snap together with a positive connection, while allowing for flexibility in panel position during installation.

Kaycan Vertical Board and Batten has a virtual cedar wood grain with real-time low maintenance.

Enjoy the look of wood, without the worry. That wood siding you long for may be beautiful when it is new or freshly painted, but its beauty is short-lived. Kaycan Vertical Board and Batten looks like you spent the money for an expensive wood siding installation, and instead of scrapers and paintbrushes, you'll be using a garden hose from time to time to maintain its appearance. It's amazing peace of mind, backed by a lifetime limited warranty. Check our website for details and a copy of the warranty.

Kaycan's Ultra-Vinyl UV technology compounds combat the harsh rays of the sun.

Low-gloss, rough cedar texture for a look of real wood.

Thickness of .046" for outstanding impact resistance and strength.

Full 1/2" profile for dramatic shadow lines.

Full 7" exposure with 5 1/2" face and 1 1/2" batten.

Using ColorFast™ Technology, non-reactive acrylic is fused to our premium vinyl compounds, providing fade resistant protection we warrant for 25 years.

Perfection Shingles™

Hand stained cedar beauty – that lasts.

The look of split cedar siding shingles without the maintenance.

Perfection Siding Shingles will not crack, rot or warp. The simple lines, historic style and natural beauty all enhance the exterior of your home. With minimal maintenance, this siding will provide years of beauty and elegance to your home's exterior.

- Unbeatable performance under the harshest weather conditions.
- Wind-load resistance of 220 mph.
- .090" thickness for added strength and rigidity.
- Variable width keyways designed to expand and contract without opening or buckling.
- Matching corner posts to complement any look.
- Advanced color-through process provides superior fade resistance.
- Backed by a Limited Lifetime Warranty.

Complete the look.

The look of Perfection Shingles isn't fully complete without Perfection Corners.

Perfection Corners are available in a length of 28".

SINGLE 7' — 6' PANEL

DOUBLE 7' — 4' PANEL

Unique temperature lines molded directly on the panel ensuring fast and accurate installation.

Special structural ribs for added stability and extra protection against warping and distortion.

Easy Lock system enables installation under a window or at the end of a wall without tilting the panel.

Perimeter locks create a seamless look and hold the panels securely together.

Vinyl Soffit

Add a low-maintenance finishing touch with these rigid vinyl soffit panels that combine the beauty of real painted wood with the strength and durability of our premium vinyl siding.

Our vinyl soffit gives your home a finished look—and virtually eliminates maintenance in those hard-to-reach areas, like under the eaves and over porches. We have many designs to choose from in woodgrain or smooth with a low-gloss finish. Vented panels feature a full-width perforated design that maximizes visual appeal while providing essential attic ventilation.

T4 Basketweave Brushed

T4 Solid Brushed

Beaded Soffit

The charm of traditional wainscoting.

Kaycan Beaded Soffit beautifully combines the handcrafted look and feel of traditional wainscot-style soffit and its characteristic beaded wood with the practicality that comes with vinyl.

Kaycan offers 8" beaded soffit, available in both solid and vented. The vented beaded has been designed to provide ventilation where it may be required yet the perforations remain hidden to maintain the integrity of your home's exterior design.

Selection of designer colors is fully coordinated with Kaycan sidings, accessories and trims.

Luxurious, finely textured matte finish never needs painting.

Invisible vents optimize airflow but the perforations are hidden.

8" Beaded Solid Brushed

8" Beaded Brushed Invisible Vent

I-Span™ Soffit

Strength that goes the extra mile.

For longer soffit expanses you need a soffit panel that can span the distance without sagging. You need I-Span™. With a 3/4" profile height, .046" wall thickness and I-beam construction, I-Span is designed for outstanding rigidity. A more rigid soffit panel provides a flatter, straighter appearance. In fact, I-Span resists sagging on over hangs up to 48".

- 3/4" profile height and .046" wall thickness.
- Innovative I-beam construction for enhanced rigidity to span distances of up to 48".
- Intellivent™ invisible venting provides necessary attic ventilation without calling attention to the soffit.

Vinyl Skirting

For a clean and professional look, Kaycan soffit panels also work exceptionally well as foundation surrounds and skirting for manufactured housing or for porch enclosures. Solid panels can be interspersed with vented panels to provide necessary air exchange beneath the building.

- Sanitary and easy to clean.
- Insect and vermin resistant.
- Easy to install.

We carry all the necessary trim pieces and accessories for these and any vinyl siding and soffit job. Our customer service personnel will be happy to assist you in product selection and ordering procedures. We have detailed installation instructions available also to help you and your contractor get a good start on a professional-looking, finished remodeling job.

16" Vented Skirting

16" Solid Skirting

Consider the effects of *color* on your home.

We make choosing the colors for your home's exterior one of the most exciting parts of remodeling. It is a decision you will live with for many years to come, so it is worth taking the time to carefully consider your choices before making your final color decision. You can enter into the process with confidence, as our vinyl siding color palettes have been designed with shades that are destined to be attractive for the life of your home.

Keep in mind that colors often look different under different kinds of light, so you may want to take your favorite color chips outdoors to get a better idea of how they look. And since we offer so many trims and accessories in contrasting colors, you may also want to compare your favorite siding and roofing colors to your trim color choices. Most of all, don't fret. There are very few right or wrong decisions. Your choice can be a reflection of your own personal style, so let it shine.

Here's some food for thought as you ponder your color choices.

Complement your home's architectural style.

The design can provide some direction for color. For example, a traditional Cape Cod home may look best with a more subtle color combination, while a Victorian-style home may inspire more dramatic color selections.

Consider the effect of lighter shades.

Your home may appear larger with the use of lighter colors, and create an impression that it's closer to the front of the lot.

Don't be afraid of darker colors.

The darker colors like khaki and clay can make your home appear as though it is set farther back on the lot. Darker colors will also tend to make a home appear smaller—making a large home seem less imposing. Be careful, as it can also make a small home appear even smaller.

Accentuate important architectural details.

If your home has complex angles, using monochromatic color schemes (different shades of the same color) helps bring balance to the overall look.

Look for areas of visual interest.

Consider choosing trim in a color that complements or subtly contrasts to add visual interest to your home's exterior. It can focus attention on areas like entryways or porches.

BUILDING LASTING IMPRESSIONS

Kaycan vinyl siding is manufactured to the highest quality standards and designed to last for decades. Your siding is very low maintenance and typically only requires an occasional washing with soapy water. Now you can relax and enjoy the freedom of never having to paint your siding again. Kaycan vinyl siding is warranted to be free from manufacturing defects that result in peeling, flaking, rusting, blistering or rotting during the lifetime of the original purchaser, subject to the term and conditions set forth in detail within the Kaycan siding warranty.
